# ALL THAT JAZZ!

Is the winter contesting season finally over? Not for me, it isn't, but the JIDX Highband CW contest will be my last one for quite a while (for a few weeks, anyway!)

Early scores for WPX SSB look pretty good, despite conditions past the peak, and low band activity down. By this time next month, we'll have a handle on what we need to do to win the world-wide club competition, in the CW half, May 26-27.

Log entries for ARRL DX contests are due (overdue for CW – Mar. 20!). Phone logs must be submitted by April 3.

Look for future information in the JUG and on the NCCC reflector, regarding the W1AW/6 operation in the IARU contest on July 14-15. This started as a Radio Oakley Contesters idea a few years ago. To maximize QSO's available to the rest of the world, and to open up participation to NCCC operators, several club members will host the HQ station callsign. Our committee will soon be selecting the stations and operators to man this 12 band-mode multi-multi-multi!

This is my last column as Vice President/Contest Chairman. It has been fun serving on the board of directors again. I urge our newer members to consider taking a club leadership role in the future, *(like in the coming year, for example!... ed)* as you get to know the membership and as you become more active in contesting. Thanks to all of you for helping NCCC achieve what is apparently a victory in the 2000 ARRL Sweepstakes! I'm glad to see many of our newer members becoming active in some of the shorter specialty events, such as Sprints, NAQP, etc. Those events are great skill-improvers for the major events.

I'll still be active in my "cheer-leading" role on the club reflector and at meetings. Kick butt in whichever contests you choose to enter!

73, Ken, N6RO, VP/CC

# DOUBLE CROSS

## Credit Where Due

As the sun sets on the 2000-2001 term, I'd like to recognize and thank those whose efforts keep the NCCC a vibrant organization:

N6RO: Ken, our ceaselessly-working contester-extraordinaire VP/CC, organized and led our (undoubtedly victorious) Sweepstakes effort this year. In addition, he runs our Thursday net and still finds time to operate and maintain his Radio Oakley superstation.

W6ISO: Kit, our Treasurer, has done a great job with our books this year; in fact, we just might have a few more \$\$\$ now than we had twelve months ago.

W0YK: Ed spends a huge amount of time and effort keeping the e-mail reflector and web site running. The recent crash of the (external) server hardware caused him great grief, and he is learning new software in hopes of mitigating any further problems. Furthermore, Ed handles our awards programs.

K6GT: Our Contester-of-the-Year, George, donates hundreds of hours to the club as JUG editor. Your JUG was accurate, useful, and on-time each month due to "Conan's" effort and dedication.

AD6E: Al has expanded and improved the log checking of the CQP, which is now superior to that of almost all other contests.

The 2000-2001 BoD: Rick, N6XI; Kurt, K7NV; Andy, AE6Y; and Ed, K6CTA. This Board quickly and efficiently dealt with many issues over the past year, for which I am deeply appreciative.

Finally, I am very pleased to state that there are many more to whom thanks are due. Unfortunately, there simply isn't enough room in this issue to list all of you. Thank you!

## WPX

Lots of big scores from NCCers in the WPX phone contest. Great equinox conditions and plenty of activity world wide made this one very enjoyable. Remember we've been challenged by the Finns, so mark your calendars for the CW weekend, May 25-27 (local).

## Final

### April Meeting

Election of our new officers and discussion of WPX are the topics for our April meeting. We will use the theatre at the Agilent Santa Clara facility. Pre-pizza ragchew begins around 6:00PM, followed by the main course at 6:30.

Thank you for letting me serve as your president for the past year; it has been a great honor. I extend my best wishes to the new board, and hope they—and the entire Northern California Contest Club—enjoy continued success during 2001-2002.

73 de Bob, K6XX

## TOWER TECH – Professional tower services

**Do you want to have an antenna or tower installed?**  
**Do you have a tower or antenna that needs repair?**  
**Do you want to replace an existing antenna?**  
**Do you need maintenance on your crank-up tower?**  
**If so, qualified help is now available.**  
**Steve Morris, K7LXC, has been doing professional commercial and amateur tower work for over 15 years and has worked on over 150 ham installations.**

**Customers include W6ISQ, W6OAT, AI6V, W6NL, K5RC and dozens of others.**

*Services you can use include:*

- \* **Tower and antenna consulting at NO CHARGE**
- \* **Building permit consulting and processing**
- \* **Civil work including concrete base, rebar cage and anchors**
- \* **Tower and antenna installation and repair**
- \* **Rooftop towers – tree installations**
- \* **Crank-up tower maintenance and repair**
- \* **Rohn and Trylon dealer**

**Steve Morris K7LXC**  
**Box 572**  
**Woodinville, WA 98072**

**425-485-7913**  
**Cell: 206-595-5895**  
**upthetower@aol.com**

K7LXC will be presenting “Secrets of Weatherproofing” and “The 10 Most Common Tower Building Mistakes” at Visalia this month.

***DON'T MISS IT!***
