

## THE CONTEST JUG

Uncorked occasionally for the NORTHERN CALIFORNIA CONTEST CLUB  
P. O. Box 2025, Castro Valley, California 94546  
September-October 1972 - #15

-----  
NEXT MEETING: Friday, October 6, 1972 at 8:00 P. M.  
Great Western Savings & Loan, 2400 Broadway, Redwood City  
All Asia recap - Yellow Team gloating - CQ Contest Strategy  
-----

De W6ITD: There is no need of going into any explanation for this one. CQ WW-fans know what its all about. The intra-club team effort worked so well for All Asia test we will try it again... "Red-Revenge". The Yellow team is waiting in mild anticipation for another first; and that suitable prize yet to be announced. The plan for this contest is team effort. This year the plan is for single-band/multiple category competition which will lead us to a large score for NCCC. Not only will we be able to be very competitive, but we can win something, bearing in mind, of course, the continuation of our high standards of ethics and CQ's new philosophy of disqualification for excessive dupes. Let's all attend this next meeting so we can finalize our strategy together. Basically the NCCC Red and Yellow teams efforts will be: single op/all band, single op/single band, multi op/uno xmtr, and multi op/mucho xmtr. You can see that as a participating member of this club we can provide you with lots of ways to play. The club effort will also include two DXpeditions by Jim Neiger, W6BHY (tnx Jim) and Rusty Epps, W6OAT (tnx Rusty). More on this at the meeting.

-----  
De ye Pres-WA6DKF: The subject of recruiting new prospects for club membership has been mentioned at past meetings - now we need to put those ideas discussed into action. All members are asked to "promote" the club's objectives and personally invite any active testers or those having a strong interest in our "favorite sport", to our coming meetings. Membership in NCCC need not conflict with membership in any other local or regional ham club (including NCDXC). our objective is to further interest, activity and proficiency in contesting, as well as piling up bigger scores in competition with other major clubs in the U. S. Also think about speaking at local or high school radio clubs in your immediate area to spread the word among the younger operators in the Bay Area. Suggested topics for such talks will be forthcoming.

Our All-Asia club and team effort in August got our fall season off to a great start. (Hooray for the Yellow Team!) Results will be announced at the meeting. (Also in this issue:Ed.) In addition to firming up plans for the CQ WW test, we'll be starting a Sweepstakes (November) plan at this meeting. What are your plans this fall?
