# 59 Cal -- QRZ Contest -- YB7AA

We're halfway through our lastest attempt to be #1, and I sense more enthusiasm for the ARRL DX test after one weekend of each mode than before the contest. The many Multi-multi entries provided a place for our less experienced folks to learn about propagation openings, running JA's, enduring pile-ups and loosing sleep! So many stations did so well that antenna/station improvements will be done in between weekends. (Would you believe one more beam to go on the PAA stack?)

"How to operate the ARRL DX Test" will be the program for the Feb. 28 meeting. Experience gained from the first half will be a basis for an in-depth, hour-by-hour, band by band analysis of "where to be when" during the second half in March. Operation techniques such as JA-running, pile-up breaking, hunt and peck vs. running, etc, will be discussed. Join in our forum style program and contribute your ideas. Bring your rate sheets for comparison with your friendly competition within the club.

A special feature of the meeting program will be the presentation of slides by WB6DSV taken during the CQ WW test in November from the 5W1 expedition. Other items to discuss will be plans for FD, Fresno, and also Dayton. CU there and bring a friend along.

## CONTEST CHAIRMAN'S CORNER

Hey gang what a showing--50 NCCers made the SS High Claim Scores in QST. And we all know how many are just below that 100K mark!! Thanks to Bruce, LPK, for collecting and tabulating the scores from the ARRL phone weekend. Remember ALL scores go to the NCDXCC. The first weekend on phone looks encouraging, both score and propagation wise. Let's all try to make it to the Tues. night NET on 3815 MHz for the latest info, not to mention the mini-contests. Maybe we should all be thinking(dreaming) up some new antenna system with all the nice WX. Tom, WA6SFT is rumored to be designing another Schiller Diller for 40m. Call our erector set chief, WB6LPK, for any help in future plans. Also finally, congrats to Greg, WB6EMA, who passed his Extra following a few free trips to FCC.

See you on the air,  
*George,* WB6DSV
